ordinance no. 99 90.02 Township of Breitung, Minnesota

AN ORDINANCE ESTABLISHING A SEWER SERVICE CHARGE SYSTEM

An Ordinance providing for Sewer Service Charges to recover costs associated with:

- 1) The operation, maintenance, and replacement of the Tower-Breitung wastewater treatment facility and the Township's collection system.
- 2) Local capital costs incurred in the construction of the Tower-Breitung wastewater treatment facility.

ARTICLE I

Definitions

Unless the context specifically indicates otherwise, the meaning of the terms used in this ordinance shall be as hereafter designated:

- Sec. 1 "Administration" Those fixed costs attributable to administration of the wastewater treatment works.
- Sec. 2 "Biochemical Oxygen Demand or BOD5" The quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five (5) days at 20° Centigrade in terms of milligrams per liter (mg/l).
- Sec. 3 "City" The area within the corporate boundaries of the City of Tower, as presently established or as amended by ordinance or other legal actions at a future time.
- Sec. 4 "Commercial User" Any place of business which discharges sanitary waste as distinct from industrial wastewater.
- Sec. 5 "Commercial Wastewaters" Domestic wastewater emanating from a place of business as distinct from industrial wastewater.
- Sec. 6 "Debt Service Charge" A charge levied on users of wastewater treatment facilities for the cost of repaying money bonded to construct said facilities.

- "Normal Domestic Strength Wastewater" Wastewater that is primarily Sec. 7 produced by residential users, with BOD5 concentrations of approximately 250 mg/l and suspended solids concentrations of approximately 275 mg/1.
- "Extra Strength Waste" Wastewater having a BOD and/or TSS greater than domestic waste as defined in Article I, Section 7 above and not Sec. 8 otherwise classified as an incompacible wasie.
- "Governmental User" Users which are units, agencies or instrumen-Sec. 9 talities of federal, state, or local government discharging Normal Domestic Strength wastewater.
- "Incompatible Waste" Waste that either singly or by interaction Sec. 10 with other wastes interferes with any waste treatment process, constitutes a hazard to humans or animals, creates a public autsance or creates any hazard in the receiving waters of the wastewater treatment works.
- Industrial Users or "Industries" are: Sec. 11
 - Entities that discharge into a publicly owned wastewater treatment works, liquid wastes resulting from the processes employed in industrial or manufacturing processes, or from the development of any natural resources. These are identified in the Standard Industrial Classification Manual, 1972, Office of Management and Budget, as amended and supplemental under one of the following divisions:

Division A. Agriculture, Forestry and Fishing

Division B. Mining

Manufacturing Division D.

Transportation, Communications, Electric, Gas, Division E.

and Sanitary Sewers

Division I. Services

For the purpose of this definition, domestic waste shall be considered to have the following characteristics:

less than 250 mg/lBOD5 less than 275 mg/l Swspended Solide

- b. Any nongovernmental user of a publicly owned treatment works which discharges wastewater to the treatment works which contains toxic pollutants or poisonous solids, liquids, or gases in sufficient quantity either singly or by interaction with other wastes, to contaminate the sludge of any municipal systems, or to injure or to interfere with any sewage treatment process, or which constitutes a hazard to humans or animals, creates a public nuisance, or creates any hazard in or has an adverse effect on the waters receiving any discharge from the treatment works.
- "Industrial Wastewater" The liquid processing wastes from an industrial manufacturing process, trade, or business including but Sec. 12 not limited to all Standard Industrial Classification Manual Class D manufacturers as distinct from domestic wastewater.

- Sec. 13 Institutional User" Users other than commercial, governmental, industrial or residential users, discharging primarily Normal Domestic Strength wastewater (e.g. Non-profit organizations).
- Sec. 14 "Operation and Maintenance" Activities required to provide for the dependable and economical functioning of the treatment works, throughout the useful life of the treatment works, and at the level of performance for which the treatment works were constructed. Operation and Maintenance includes replacement.
- Sec. 15 "Operation and maintenance Costs" Expenditures for operation and maintenance, including replacement.
- Sec. 16 "Public Wastewater Collection System" A system of sanitary sewers owned maintained, operated and controlled by the City.
- Sec. 17 "Replacement" The obtaining and installing of equipment, accessories, or appurtenances which are necessary during the design life of the wastewater treatment works to maintain the capacity and performance for which such facilities were designed and constructed.
- Sec. 18 "Replacement Costs" Expenditures for replacement.
- Sec. 19 "Residential User" A user of the treatment facilities whose premises or building is used primarily as a residence for one or more persons, including dwelling units such as detached and semi-detached housing, apartments, and mobile homes; and which discharges primarily normal domestic strength sanitary wastes.
- Sec. 20 "Sanitary Sewer" A sewer intended to carry only liquid and water carried wastes from residences, commercial buildings, industrial plants, and institutions, together with minor quantities of ground, storm, and surface waters which are not admitted intentionally.
- Sec. 21 "Sewer Service Charge" The total of the charges for operation, maintenance, replacement, and debt service.
- Sec. 22 "Sewer Service Fund" A fund into which income from Sewer Service Charges is deposited along with other income, including taxes intended to retire debt incurred through capital expenditure for wastewater treatment. Expenditure of the Sewer Service Fund will be for operation, maintenance and replacement costs; and to retire debt incurred through capital expenditure for wastewater treatment.
- Sec. 23 "Shall" is mandatory; "May" is permissive.
- Sec. 24 "Slug" Any discharge of water or wastewater which in concentration of any given constituent, or in quantity of flow, exceeds for any period of duration longer than fifteen (15) minutes, more than five (5) times the average 24-hour concentration of flows during normal operation, and shall adversely affect the collection and/or performance of the wastewater treatment works.
- Sec. 25 "Standard Industrial Classification Manual" Office of Management and Budget, 1972.

- Sec. 26 "Suspended Solids (SS) or Total Suspended Solids (TSS)" The total suspended matter that either floats on the surface of, or is in suspension in water, wastewater or other liquids, and is removable by laboratory filtering as prescribed in "Standard Methods for the Examination of Water and Wastewater", latest edition, and referred to as non-filterable residue.
- Sec. 27 "Township" The area within the boundaries of the Township of Breitung, as presently established or as amended by ordinance or other legal actions at a fature time.
- Sec. 28 "Toxic Pollutant" The concentration of any pollutant or combination of pollutants which upon exposure to or assimilation into any organism will cause adverse affects as defined in standards issued pursuant to Section 307(a) of the Act.
- Sec. 29 "User Charge" A charge levied on users of a treatment works for the user's proportionate share of the cost of operation and maintenance, including replacement.
- Sec. 30 "Users" Those residential, commercial, institutional, industrial and governmental establishments which are connected to the public sewer collection system.
- "Wastewater" The spent water of a community, also referred to as sewage. From the standpoint of source, it may be a combination of the liquid and water-carried wastes from residences, commercial buildings, industrial plants, and institutions together with any ground water, surface water and storm water that may be present.
- "Wastewater Treatment Works or Treatment Works" An arrangement of any devices, facilities, structures, equipment, or processes owned or used by the City for the purpose of the transmission, storage, treatment, recycling, and reclamation of municipal sewage, domestic sewage or industrial wastewater, or structures necessary to recycle or reuse water including interceptor sewers, outfall sewers, collection sewers, pumping, power, and other equipment and their appurtenances; extensions, improvements, remodeling, additions, and alterations extensions, improvements essential to provide a reliable recycled water thereof; elements essential to provide a reliable recycled water supply such as standby treatment units and clear well facilities; and any works including land which is an integral part of the treatment process or is used for ultimate disposal of residues resulting from such treatment.

ESTABLISHMENT OF A SEWER SERVICE CHARGE SYSTEM

Sec. I The Township of Breitung hereby establishes a Sewer Service Charge System whereby all revenue collected from users of the wastewater treatment facilities will be used to affect all expenditures incurred for annual operation, maintenance, and replacement and for debt service on capital expenditure incurred in constructing the wastewater treatment works.

- Sec. 2 Each user shall pay its proportionate share of operation, maintenance and replacement costs of the treatment works, based on the users proportionate contribution to the total wastewater loading from all users.
- Sec. 3 Each user shall pay debt service charges to retire local capital costs as determined by the Township Board.
- Sec. 4 Sewer Service rates and charges to users of the wastewater treatment facility shall be determined and fixed in a "Sewer Service Charge System" developed according to the provisions of this Ordinance. The Sewer Service charge System developed with the assistance of Mateffy Engineering & Associates, Inc. shall be adopted upon enactment of this Ordinance, shall be published in the local newspaper, and shall be effective upon publication. Subsequent changes in Sewer Service rates and charges shall be adopted by the Township Board and shall be published in the local newspaper.
- Sec. 5 Revenues collected for Sewer Service shall be deposited in a separate fund known as "The Sewer Service Fund". Income from revenues collected will be expended to offset the cost of Operation, Maintenance, and equipment replacement for the facility.
- Sec. 6 Sewer Service Charges and the Sewer Service Fund will be administrated in accordance with the provisions of Article V of this Ordinance.

ARTICLE LII Determination of Sewer Service Charge

- Sec. l Users of the wastewater treatment works shall be identified as belonging to one of the following user classes:
 - 1) Residential
 - 2) Commercial
 - 3) Industrial
 - 4) Institutional
 - 5) Governmental

The allocation of users to these categories for the purpose of assessing User Charges and Debt Service Charges shall be the responsibility of the Township Clerk. Allocation of user classes shall be based on the substantive intent of the definitions of these classes contained herein.

Sec. 2 The rates assessed residential users and those users of other classes who discharge "Normal Domestic Strength Wastewater" shall be determined on the basis of wastewater volume only.

Those "industrial users" who discharge "Normal Domestic Strength Wastewater" only, can be classified as "Commercial Users" for the purpose of rate determination.

Sec. 3 The charges assessed residential users and those users of other classes discharging "Normal Domestic Strength Wastewater" shall be established proportionately according to billable wastewater volume. Billable wastewater volume shall be calculated as follows.

a. Residential Users

Billable wastewater volume for residential users shall be calculated on the basis of metered water usage. The per quarter billable wastewater volume shall be equal to quarterly metered water usage as average between the first and last quarters of the calendar year.

b. Non-Residential Users

The billable wastewaters volume of non-residential users may be determined in the same manner as for residential users. Except that if the Township determines that there are significant seasonal variations in the metered water usage of non-residential users resulting in a proportionate increase in wastewater volume; then billable wastewater volume shall be: i) calculated on the basis of quarterly metered water usage as recorded throughout a year, or 2) calculated on the basis of wastewater flow meters.

The Township may, at its discretion, require non-residential users to install such additional water meters or wastewater flow meters as may be necessary to determine billable wastewater volume.

Sec. 4 The Sewer Service Charge shall consist of a User Charge for Operation, Maintenance and Replacement, and a Debt Service Charge for retirement of the capital cost debt. These charges will be determined as follows:

a. User Charge

User Charges for Normal Domestic Strength users shall be determined as follows:

 CALCULATION OF UNIT COST FOR TREATMENT OF NORMAL DOMESTIC STRENGTH WASTEWATER (Including Infiltration/Inflow):

Uomr = Comr

Where: Uomr = Unit cost for Operation, Maintenance and Replacement in \$/kgal.

Comr = Total annual OM&R costs.

Twv = Total annual wastewater volume in kgal.
 (Including Infiltration/Inflow)

CALCULATION OF UNIT COST PER COMMUNITY

(per community = pc)

Comr(pc) = Uomr x Twv(pc)

Where: Comr(pc) = Total annual 0,M, & R costs per commutty

= Unit cost for 0,M & R in \$/kgal Uomr

= Total annual wastewater volume in kgal Twv(pc)

(Including Infiltration/Inflow).

 $Uomr(pc) = \frac{Comr(pc)}{Tbwv(pc)}$

Where: Uomr(pc) = Unit cost for 0,M & R in \$/kgal of billable wastewater volume

(metered water volume)

Tbwv(pc) = Total annual billable wastewater volume in kgal. (metered water volume)

3. CALCULATION OF USER CHARGE:

Uc = Uomr(pc) x bwv

= User Charge Where: Uc

Uomr = Unit cost for Operation, Maintenance and

Replacement of \$/kgal.

= Billable wastewater volume of a particular bwv

user in kgal (metered water volume).

b. Debt Service Charge

Local construction costs of the wastewater treatment facility will be recovered through a Debt Service Charge calculated in a manner consistent with the User Charge, as follows:

CALCULATION OF UNIT COST FOR DEBT SERVICE:

Uds = Cds

= Unit Cost for debt service in \$/kgal Where: Uds

= Cost of annual debt service. Cds

= Total annual wastewater volume in kgal (including Infiltration/Inflow).

CALCULATION OF UNIT DEBT SERVICE CHARGE PER COMMUNITY (per community = pc)

Tcds = Uds x Twv(pc)

Where: Tcds(pc) = Total annual debt service costs per community

Uds = Unit cost for debt service in \$/kgal.

Twv(pe) = Total annual unstewater value in kgal
(Including Infiltration/Inflow)

 $Uds(pc) = \frac{Tcds(pc)}{Tbwv(pc)}$

Where: Uds(pc) = Unit cost for debt service in \$/kgal of billable wastewater volume (metered water volume)

Tbwv(pc) = Total annual billable wastewater volume in kgal. (metered water volume)

3. CALCULATION OF DEBT SERVICE CHARGE:

Udc = Uds(pc) x bwv

Where: Udc = User Debt Service Charge

Uds = Unit cost for debt service of \$/kgal.

bwv = Billable wastewater volume of a particular

user in kgal (metered water volume)

c. Determination of Sewer Service Charges

The Sewer Service Charge for a particular connection shall be determined as follows:

ssc = Uc + Udc

Where: SSC = Sewer Service Charge

Uc = User Charge

Udc = User Debt Service Charge

- Sec. 5 The Sewer Service Charge established in this Ordinance shall not prevent the assessment of additional charges to users who discharge wastes with concentrations greater than Normal Domestic Strength or wastes of unusual character, or contractual agreements with such users, as long as the following conditions are met:
 - a. The user pays Operation, Maintenance, and Replacement costs in proportion to the user's proportionate contribution of wastewater flows and loadings to the treatment plant, and no user is charged at a rate less than that of "Normal Domestic Strength Wastewater".
 - b. The measurements of such wastes are conducted according to the latest edition of Standard Methods for the Examination of Water and Wastewater in a manuer acceptable to the Township as provided for in Ordinance No. 90 03 "An Ordinance Establishing Sewer Use Regulations."
 - c. The Facility's NPDES Permit and sewer use regulations are not violated.

A study of unit costs of collection and treatment processes attributable to flow, BOD, TSS, and other significant loadings shall be developed for determining the proportionate allocation of costs to users discharging wastes of greater than normal domestic strength or wester of unusual character.

ARTICLE IV

Sewer Service Fund

Sec. 1 The Township of Breitung hereby establishes a "Sewer Service Fund" as an income fund to receive all revenues generated by the Sewer Service Charge Systems, and all other income dedicated to the operation, maintenance, replacement and construction of the wastewater treatment works, including taxes, special charges, fees, and assessments intended to retire construction debt.

The Township also establishes the following accounts as income and expenditure accounts within the Sewer Service Fund:

- 1) Operation and Maintenance
- 2) Equipment Replacement Account
- 3) Debt Retirement Account
- Sec. 2 All revenue generated by the Sewer Service Charge System, and all other income pertinent to the treatment system, including taxes and special assessments dedicated to retire construction debt, shall be held by the Clerk separate and apart from all other funds of the Township. Funds received by the Sewer Service Fund shall be transferred to the "Operation and Maintenance Account", the "Equipment Replacement Account," and the "Debt Retirement Account" in accordance with State and Federal regulations and the provisions of this ordinance.
- Sec. 3 Revenue generated by the Sewer Service Charge System sufficient to insure adequate replacement throughout the design life of the wastewater facility shall be held separate and apart in the "Equipment Replacement Account" and dedicated to affecting replacement costs. Interest income generated by the "Equipment Replacement Account".
- Sec. 4 Revenue generated by the Sewer Service Charge System sufficient for operation and maintenance shall be held separate and apart in the "Operation and Maintenance Account".

ARTICLE V

Administration

The Sewer Service Charge System and Sewer Service fund shall be administrated according to the following provisions:

Sec. 1 The Township Clerk shall maintain a proper system of accounts suitable for determining the operation and maintenance, equipment replacement and debt retirement costs of the treatment works, and shall furnish the Township Board with a report of such costs annually in the annual financial statement.

The Township Board shall annually determine whether or not sufficient revenue is being generated for the effective operation, maintenance, replacement and management of the treatment works, and whether sufficient revenue is being generated for debt retirement. The Township Board will also determine whether the user charges are distributed proportionately to each user in accordance with Article II, Section 2 of this Ordinance and Section 204(b)(2)(A) of the Federal Water Pollution Control Act, as amended.

The Township shall thereafter, but not later than the end of the year, reassess, and as necessary revise the Sewer Service Charge System then in use to insure the proportionality of the user charges and to insure the sufficiency or funds to maintain the capacity and performance to which the facilities were constructed, and to retire the construction debt.

- Sec. 2 In accordance with Federal and State requirements each user will be notified annually in conjunction with a regular billing of that portion of the Sewer Service Charge attributable to operation, maintenance and replacement.
- Sec. 3 In accordance with Federal and State requirements, the Clerk shall be responsible for maintaining all records necessary to document compliance with the Sewer Service Charge system adopted.
- Sec. 4 Bills for / Charges shall be rendered on a quarterly basis succeeding the period for which the service was rendered and shall be due 30 days from the date of rendering. Any bill not paid in full 15 days after the due date will be considered delinquent. At that time the Township shall notify the delinquent owner/occupant in writing regarding the deliquent bill and subsequent penalty. The penalty shall be computed as 10% of the original bill and shall be increased the same 10% for every quarter the bill is outstanding.
- Sec. 5 The owner of the premises shall be liable to pay for the service to such premises, and the service is furnished to the premises by the Township only upon the condition that the owner of the premises is liable therefore to the Township.
- Sec. 6 Any additional costs caused by discharges to the treatment works of toxics or other incompatible wastes, including the cost of restoring

wastewater treatment services, clean up and restoration of the receiving waters and environs, and sludge disposal, shall be borne by the discharger(s) of said wastes, at no expense to the Township.

ARTICLE VI

Penalties

- Sec. I Each and every sewer service charge levied by and pursuant to this Ordinance is hereby made a lien upon the lot or premises served, and all such charges which are on October 15th of the year past due and deliquent, shall be certified to the County Auditor as taxes or assessments on the real estate. Nothing in this Ordinance shall be held or construed as in any way stopping or interferring with the right of the Township to levy as taxes or assessment against any premises affected any deliquent or past due sewer service charges.
- Sec. 2 As an alternative to levying a lien, the Township may, at its discretion, file suit in a civil action to collect such amounts as are deliquent and due against the occupant, owner, or user of the real estate, and shall collect as well all attorney's fees incurred by the Township in filing the civil action. Such attorney's fees shall be fixed by order of the court.
- Sec. 3 In addition to all penalties and costs attributable and chargeable to recording notices of the lien or filing a civil action, the owner or user of the real estate being serviced by the treatment works shall be liable for interest upon all unpaid balances at the rate of 12% per annum.

ARTICLE VII

Severability and Validity

Sec.	1	If any section or subdivision of this ordinance shall be held inva	1-
		lid, the invalidity thereof shall not affect the validity of the	ıe
		other provisions of this Ordinance, which shall continue in ful	ŁI
		force and effect.	

- Sec. 2 The sewer service charge system shall take precedence over any terms or conditions of agreements or contracts which are inconsistent with the requirements of Section 204(b)(1)(A) of the Act and Federal regulation 40 CFR (Code of Federal Regulations) 35.2140 of the Environmental Protection Agency's grant regulations.
- Sec. 3 This Ordinance shall be in full force and take effect from and after its passage and approval and publication as provided by law.
- Passed by the Township Board of the Township of Breitung, Minnesota Sec. 4 on the 10th day of July, 1990
